Held in conjunction with:

5th annual
SCM
Logistics World 2009

6-7 October 2009

Raffles City Convention Centre, Singapore

The annual **SCM Logistics Excellence Awards** is the industry's most prestigious and sought after awards for excellence in supply chain management and logistics.

Last year, more than 400 international delegates convened in the **SCM Logistics World** conference to honour top companies and individuals for their outstanding achievements in supply chain and logistics excellence. The awards ceremony took place both during the conference and at the Viva Las Vegas Networking Party, where everyone had fun and networked over dazzling entertainment, fun games and good food.

In 2009, the fun and legacy continues with the 5th annual **SCM Logistics Excellence Awards**. Fronted by a Panel of Judges, whose individuals are each renowned for their authority and expertise in supply chain management and logistics, this is Asia Pacific's supply chain and logistics industry's most coveted awards. It recognises the innovators and leaders who have steered their developed their supply chains into key strategic elements of business success.

Now into its 5th year, **SCM Logistics World** is the annual gathering point for all supply chain and logistics professionals in the region to hear from the leaders as well as to celebrate the achievements of their peers. Come **6-7 October 2009**, awards will be presented to recognise leading organisations and individuals from the manufacturing, technology and service industries, who have distinctively set themselves apart and driven successful implementation of supply chain strategies, systems and practices in addressing the market's critical challenges.

Our Distinguished Panel of Judges for 2009

Professor Yossi Sheffi

Professor of Engineering and Director, MIT Center for Transportation and Logistics
Massachusetts Institute of Technology, USA

Yossi Sheffi is a professor at the Massachusetts Institute of Technology, where he serves as Director of MIT's Engineering Systems Division and the MIT Center for Transportation and Logistics. He is an expert in systems optimisation, risk analysis and supply chain management. Under his leadership, the Center launched many new educational, research, and industry/government outreach programs, leading to substantial growth. In 2003 he launched the MIT-Zaragoza programme, building a new logistics university in Spain based on a unique international academia, government and industry partnership. Yossi is also the author of dozens of scientific publications and two books, and has consulted numerous government agencies and leading manufacturing, retail and transportation enterprises across the world.

Professor Waiman Cheung

Director, Li & Fung Institute of Supply Chain Management and Logistics
Chinese University of Hong Kong

Waiman Cheung is currently the Director of Li & Fung Institute of Supply Chain Management & Logistics, Director of the Center of Cyber Logistics and is the Chairman and Professor of the Department of Decision Sciences and Managerial Economics at The Chinese University of Hong Kong. Waiman is an expert in IT applications in logistics and supply chain management and has consulted for a number of global corporations and has written extensively in many leading professional publications.

Professor Daniel Corsten

Professor of Operations and Supply Chain Management
IE Business School, Spain

Daniel Corsten is a founding academic of the Efficient Consumer Response Initiative, the biggest collaborative movement in the world. He has researched and consulted Procter & Gamble, Unilever, Wal-Mart, Migros, Sainsbury and many other consumer and retail companies to help them improve customer service, lower cost, reduce out-of-stock level and create sustainable supply chains. Before joining IE Business School, Daniel has taught or researched at St. Gallen (Switzerland), Bocconi (Italy), INSEAD (France and Singapore), London Business School (UK) and Wharton (USA).

Dr William Grenoble

Executive Director, Center for Supply Chain Research
PennState Smeal College of Business, USA

William Grenoble is Executive Director of the Center for Supply Chain Research (CSCR) at Penn State. CSCR is a pre-eminent research community of scholars and practitioners dedicated to shaping practice in logistics and supply chain management in today's converging economies. He is a member of the Council of Supply Chain Management Professionals and the Warehousing Education and Research Council. He is a member and advisor to the Semiconductor Logistics Forum and is a member of the Distribution Committee of the National Defense Transportation Association. He has served on the Executive Board of the International Customer Service Association, and on the SCORBoard, the North American Leadership Team, and the Training & Education Committee of the Supply Chain Council.

Jeffrey Russell

Managing Director, Global Supply Chain Practice
Accenture, Singapore

Jeffrey Russell is the Managing Director of Accenture's Supply Chain Practice Globally for their Products business and across Asia Pacific for all their business platforms. He has held a number of regional and global leadership roles within Accenture over the past 10+ years. Jeffrey has 20 years consulting and industry experience in North America and in the Asia Pacific region for the past 15+ years working for a range of leading global manufacturing, distribution and retail based organisations. He is a regular speaker and contributing author on a variety of strategic business issues facing organisations across their extended value chain focused on creating a more profitable and sustainable business model.

Steve Banker

Director Supply Chain Management
ARC Advisory Group, USA

Steve Banker is one of the best known industry analysts covering Supply Chain Management and is a frequent speaker at industry events. His focus areas include Warehouse Management, Supply Chain Planning, Operational Excellence in SCM, Supply Chain Visibility, Supply Chain Risk Management, Tax Efficient Supply Chains, and Supply Chain Management for the Food and Beverage and Consumer Goods Industries. Steve has been with ARC since 1996, and was a Professor at Stonehill College and Pennsylvania State University prior to joining ARC.

Call for Nominations

2009 has been a year of unprecedented economic and market paradigms. To put it all into perspective, **SCM Logistics Excellence Awards** will walk away from being conventional and traditional this year.

We are recognising **an outstanding individual** and **top five companies** who have successfully driven their supply chain strategies, implemented systems and practices that effectively helped developed their supply chains into strategic and valuable tools in mitigating challenges that has been created by the recent economic downturn.

2009 will also be the year where we recognise the **top five technology solutions and service providers** who have distinctively set themselves apart by providing significant value and benefits to their customers, and who have successfully supported and contributed to their clients' business objectives and strategies to build stronger and more resilient supply chains during this period of market uncertainties.

The Call for Nominations period has begun for the **SCM Logistics Excellence Awards 2009**. From now until **31 August 2008**, nominations may be submitted to lynette.han@terrapinn.com.

Categories

For Manufacturers:

- **Supply Chain Executive of the Year Award**
- **2009 Supply Chain Excellence Award** (Top 5 companies)

For Technology Solutions and Service Providers':

Nomination Submissions

STEP 1: CATEGORY SELECTION

Please select the category you are interested in entering or nominating a person/company for.

For Manufacturers:

- **Supply Chain Executive of the Year Award**
- **2009 Supply Chain Excellence Award** (Top 5 companies)

For Technology Solutions and Service Providers:

- **Outstanding Partner in Supply Chain Excellence** (Top 5 companies)

STEP 2: COMPILING YOUR ENTRY

Complete entries are comprised of:

- **1 completed nomination form:** Enclosed in this nomination pack. You may also request for the nomination form to be in MS Word format by emailing lynette.han@terrapinn.com. The form must be filled out completely in order for it to be considered valid.
- **1 supporting document:** These can be client testimonials, survey results, press releases or others – any written document that will support the nomination's substantiation. You may submit more than 1 supporting document, but the minimum requirement is 1.

STEP 3: SUBMITTING YOUR NOMINATION

The deadline for all nominations to be submitted for consideration for the shortlist is on or before **31 August 2008** via email to lynette.han@terrapinn.com. Incomplete submissions missing either a **nomination form** or a **supporting document** will be considered invalid entries. In the email subject heading, please put in "**Nomination Submission by X Company for the SCM Logistics Excellence Awards**"

Upon our receipt of your submission, you will receive an email confirmation. If you do not receive this email confirmation, please contact **Lynette Han** at lynette.han@terrapinn.com or Tel: +65 6322 2797.

If at any time you experience any issues or have any questions about the general entry process, please do not hesitate to contact our events team.

Award categories and criteria for judging

Manufacturers:

Supply Chain Executive of the Year Award

This award serves to recognise the achievements of an outstanding individual in the global supply chain arena who has successfully spearheaded and driven supply chain initiatives, taking the company to the next level of excellence. This individual has broad and deep knowledge about the industry, is forward-thinking and innovative in his/her approach to evolving supply chain issues and challenges, and who has made significant contribution in driving the company's business objectives particularly in this period of new economic and market paradigms.

Individuals will be judged on the following criteria:

- Individual contribution to the company in actively driving supply chain initiatives that has resulted in developing a more cost-effective, innovative and resilient supply chain
- Leadership role in supply chain management and people development within the business teams
- Demonstrated positive organisational change through his/her role in the supply chain organisation
- Internal recognition by company towards the individual's contributions
- Depth and breadth of supply chain experience
- Peer recognition
- Contribution to the development of the logistics and supply chain community

2009 Supply Chain Excellence Award (Top 5 companies)

This award recognises excellence in organisation and management of a complete supply chain, acknowledging the outstanding achievements of companies who have demonstrated innovation, strength and resilience in solving supply chain challenges and optimising supply chain efficiency. Winners of this award are enterprises who have successfully realised their corporate objectives as a result of effective supply chain management across the organisation's value chain.

Companies will be judged on the following criteria:

- Management leadership in driving supply chain excellence throughout the organisation
- Supply chain strategies that demonstrate optimum results in achieving corporate objectives such as, enhancing the company's financial bottom-line, maximising customer satisfaction, achieving cost reduction, increasing market share and gaining market leadership
- Measurable components of implementation for business processes along the supply chain through outcomes (stock turns, availability, etc), enablers (S&O Planning) and IT infrastructure (supporting investments)
- Successful collaboration strategies with suppliers and partners to strengthen supply chain relationships

Supply Chain and Logistics Service Providers:

Outstanding Partner in Supply Chain Excellence (Top 5 companies)

This award recognises the top companies for their outstanding contributions in supply chain partnerships. These companies are providers of supply chain solutions and/or logistics services that have played significant roles in driving supply chain and/or logistics excellence in their client organisations, resulting in improved business performance. This award illustrates the importance and significance of supply chain partnerships, particularly during critical economic times. Winners of this award will be companies who have gone beyond the conventional terms of their contract and business deals to help and support their clients in mitigating the challenges of a volatile economy as well as the ever-changing business and consumer landscape.

Companies will be judged on the following criteria:

- Track record in assisting clients to reduce supply chain and logistics cost and develop an integrated supply chain
- Service level performance in terms of credibility, reliability and provision of end-to-end supply chain solutions/services
- Quantifiable results that has demonstrated success in developing mutually beneficial partnerships to strengthen the client's commercial objectives
- Initiatives in addressing environmental challenges and have established environmental responsibility as a priority in their business objectives with clients
